SPOKANE AND HONOLULU MEN STIR UP SAN FRANCISCO

INCIDENTS IN THE CAREER OF A VISITOR ABOUT TOWN, SHOWING GRAPHICALLY WHAT HE WAS UP AGAINST.

SAN FRANCISCO, February 10.—H. G. Pickers and Alexander Fish, two guests at the Hotel Jefferson, were locked out of their rooms by the management of the hotel yesterday because of their failure to pay various bills they had contracted in the house. Both men are well known in business and social circles of Spokane and Honolulu and have at various times been guests at the Fairmont and St. Francis of this city.

Their predicament at the Jefferson is the culmination of a revelry fling around this city and Oakland, lasting several weeks. During this time they have spent a lot of cash and have accumulated automobile and hotel debts aggregating something like \$714.

One night during this time they also had an exciting experience in Golden Gate Park. With them in their automobile were two women. Pickers had the automobile stop opposite the deer and elk paddock. Before his companion-

ions divined his purpose, he was over the fence and soon had seized an elk by its horns. The struggle between man and beast was of short duration. Pickers was thrown, but managed to get up and away with only a damaged nose.

He attempted to repeat the experience at the buffalo paddock, further along the road, and was only restrained from doing so after a tussle with his companions.

A serious phase of Pickers and Fish's unconventional outing is the claim of the automobile people at the St. Francis that Pickers gave them a check for \$175 which came back dishonored.

Faulkner & Schuler, who own the garage at Polk and Turk streets, also claim that Pickers gave them a check for \$316 which came back dishonored.

Friends of the two men are making strenuous efforts to raise money to settle all their debts as quickly and quietly as possible.

THE KASATO MARU AND HER STRANGE MISSION

VALPARAISO, February 18.—The Japanese steamer Kasato Maru, which is equipped with wireless apparatus, occupied twenty-four days in making the trip from Iquique to Tocopilla. There is much curiosity as to her motive in spending this time.

It was announced February 1, by the Pacific Guano and Fertilizer Company that the charter of the Chilean ship Liangulhu, which had been engaged to bring nitrates here from nitrate ports, had been canceled and that the Japanese S. S. Kasato Maru had been chartered in its place, and was expected to be here some time in February.

The nitrate ports, include a number of landings between Iquique and Caldera. One of the important ones is Antofagasta. A number of them have been recently established and do not appear on any but the very latest maps. Loading at these landings is very slow. There are no wharves. Vessels have to remain well out at moorings, and the nitrates are loaded by means of boats or lighters. In addition

to other delays rough water often interferes for days at a time. There are many holidays on which the laborers will not work. Thus according to shipping men familiar with the conditions there, it might readily happen that a vessel, obliged to go to several of these landings for her cargo, might be days in completing her load, as the Kasato Maru seems to have been. Iquique and Tocopilla are about seventy miles apart.

The Kasato Maru was in the port of Honolulu last November, sailing from here November 7 for Callao where she arrived December 12. A Captain Filmer, an Englishman nearly eighty years of age, was in nominal command of the vessel. But a Japanese named Mori was the Japanese master. During the war between Japan and Russia she was in the service of the Japanese government. She was built in 1900 by Wigham, Richardson & Co. at Newcastle-on-Tyne. Is of steel and gross tonnage and 3522 net; 400 masts, 50 feet long, and 19 feet deep of hold. She was not equipped with wireless when in this port, but may have had the apparatus in her hold.

JUDGE WILFLEY ASKS FOR THE PARTICULARS

Judge Lebbeus R. Wilfley, of the U. S. District Court of Shanghai, China, by his attorney, A. G. M. Robertson, moves that the court here order Francis M. Brooks, plaintiff in a suit for damages against him and his clerk, Frank E. Hincley, to furnish him with a bill of particulars setting forth the following matters:

"1. Specifying the several days before and since the 15th day of September 1907 on which, as plaintiff claims, this defendant and the defendant Frank E. Hincley, or either of them, stated that 'Brooks was and is a fugitive from justice from Honolulu and he dare not return there,' and to name the person or persons to whom or in whose presence such statement was made.

"2. Specifying what letters, giving dates and names of persons to whom addressed, wherein, as plaintiff claims, this defendant and the defendant Frank E. Hincley, or either of them, charged the plaintiff with being a fugitive from justice and unfit to practise his profession, or to carry on his business.

"3. Specifying in detail what malicious and defamatory articles in the public press in Shanghai were written, printed, published or circulated by the defendants herein, or either of them."

LAST YEAR'S BUSINESS OF THE PARKER RANCH

Alfred W. Carter, guardian of the property of Annie T. K. Parker, a minor, has rendered his eighth account which is now under reference to J. Marcellino as master. The estate is the well-known Parker ranch.

The guardian charges himself with \$249,492.12 and asks to be allowed \$250,516.73, showing an overpayment of \$1024.61. There is a capital expenditure of \$1036.23.

The inventory shows probably 150,000 acres of land, investments amounting to \$20,517.25 and live stock as follows: 30,000 head of cattle, 18,000 head of sheep and 2000 head of horses, all "more or less."

The guardian's commissions amount to \$12,239.51. The account is for the year 1907.

SORE HANDS

Red, Rough Hands, Itching
Burning Palms and Painful
Finger Ends
ONE NIGHT TREATMENT

Soak the hands on retiring in a strong, hot, creamy lather of CUTICURA SOAP. Dry, and anoint freely with CUTICURA, the great skin cure and purest of emollients. Wear, during the night, old, loose kid gloves, with the finger ends cut off and air holes cut in the palms. For red, rough, chapped hands, dry, fissured, itching, feverish palms, with shapeless nails and painful finger ends, this treatment is simply wonderful.

Millions of Women Use Cuticura Soap

Exclusively, for preserving, purifying, and beautifying the skin, for cleansing the scalp of crusts, scales, and dandruff, and the stopping of falling hair, for softening, whitening, and soothing red, rough, and sore hands, in the form of baths for annoying irritations, inflammations, and chafings, or too free or offensive perspiration, in the form of washes for ulcerative weaknesses, and for many sanative antiseptic purposes which readily suggest themselves to women, and especially mothers, and for all the purposes of the toilet, bath, and nursery. No amount of persuasion can induce those who have once used it to use any other, especially for preserving and purifying the skin, scalp, and hair of infants and children. CUTICURA SOAP combines delicate emollient properties derived from CUTICURA, the great skin cure, with the purest of cleansing ingredients and the most refreshing of flower odors. No other medicated soap ever compounded is to be compared with it for preserving, purifying, and beautifying the skin, scalp, hair, and hands. No other foreign or domestic toilet soap, however expensive, is to be compared with it for all the purposes of the toilet, bath, and nursery. Thus it combines in ONE SOAP at ONE PRICE, the BEST skin and complexion soap, the BEST toilet and BEST baby soap in the world.

Complete External and Internal Treatment for Every Mound, consisting of CUTICURA SOAP, to cleanse the skin of crusts and scales and soften thickened cuticle, CUTICURA Ointment, to instantly allay itching and irritation and soothe and heal, and CUTICURA RESOLVENT, to cool and cleanse the blood. FATE DECIDED LONG TIME AGO

(From Wednesday's Advertiser.)

William Henry, High Sheriff, in his return to the petition of Funakoshi Tatsugoro for a writ of habeas corpus, denies that the trial was held partly outside of the court room. He says that all the proceedings occurring in a Japanese lodging house were, on motion of attorneys of defendant and an order of the court, stricken from the record of the proceedings.

Denying that Funakoshi was not tried, convicted and sentenced according to law as alleged in the petition, the high sheriff relates the proceedings that ended in judgment and sentence by Judge Gilbert F. Little at South Hilo on January 28, 1907. Funakoshi being sentenced to imprisonment at hard labor for thirty years, and to pay \$20.00 costs of court or to be imprisoned until such costs were paid. The copy of mittimus exhibited shows that Funakoshi Tatsugoro was convicted of murder in the second degree on one Motohiro Kitano on July 25, 1902.

It is further shown in the return that Funakoshi appealed to the Supreme Court, which gave a written decision on November 7, 1904, and that in the appeal and exceptions all the matters and things and questions of law and fact set up in the petition for a writ of habeas corpus were duly presented and argued to the Supreme Court and decided against the claims of the defendant.

ACCEPTS JAIL SENTENCE.
H. Conolly has withdrawn his appeal from District Magistrate Andrade, who sentenced him to be imprisoned for six months and to pay costs for the offense of common nuisance. He is the man detected through a telescope while acting in a lewd manner upon the top of Punchbowl slopes, where, before his arrest, he was subjected to a severe trouncing by J. Medeiros, brother of a little girl he had enticed to the spot.

MAY HAVE SAID "PLEASE."
T. M. Harrison for Nakamoto, indicted for larceny in the second degree, has entered a demurrer on the ground that the indictment "does not state that the defendant did unlawfully and feloniously steal, take and carry away, against the will of the owner thereof, any of the things alleged in said indictment to have been stolen, taken and carried away."

REMEDIES FOR MEALY BUGS.
In the year 1902 I took charge of a 30-acre plantation of pineapples and the vines were bearing, but in the fall all looked sick and were dying out, so I sent to the Experiment Station at Lake City some plants and they reported mealy bugs. I at once ordered 20 tons of tobacco dust for insecticide purposes, and in the year 1904 I shipped the best crop of pines grown in the neighborhood, and if your subscribers will apply 1500 pounds per acre as soon as possible, of the best tobacco dust, I feel satisfied he will have no further trouble, but in the future he should always include tobacco dust in every application of fertilizer.—Florida Agriculturalist.

Can any of the Advertiser readers tell price of tobacco dust?
